

### Pneumatic Specimen Press : NRI-CP 54511

This product can meet your testing requirement and supply solutions of problems.

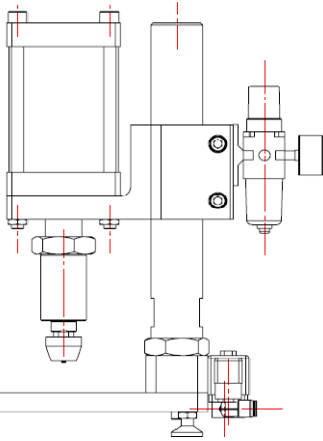

Pneumatic Specimen Press is able to coordinate with various cutters to cut them into samples or into standard shape specimen.

Ready for tensile test, tearing test, sample, and other tester.

Suitable for soft material such as paper, rubber, soft plastic, polyfoam, etc..

#### Specifications:

Dimension	: 250 mm x 300 mm x 500 mm
Air pressure	: 1.5-8 bar (kg/cm <sup>2</sup> )
Cutting force	: 600 kgf
Cylinder Stroke	: 150 mm
pressure gauges	: 0-10 bar
<b>Cutting</b>	: Sensor switch control (door)
	: 2-Cutting switch(Safety)

#### Accessories

	: Air filter
	: Air lubricator
	: Flow control valves
	: Dies adjustable level
	: Tool box
	: Cutting mats one piece.
Cutting mats	: 250 mm x 250 mm
Weight	: ~ 35 kg
Power supply	: AC 220V , 50Hz

#### Feature

: Easy to operate, energy saving, time saving.

#### Others

Operation Manual Operating training
